JOB DESCRIPTION

JOB TITLE	Technician
SALARY BAND	£30k - £32k
LOCATION	Heathrow
RESPONSIBLE TO	Operations and Maintenance Manager

MAIN PURPOSE OF JOB

To ensure that a safe and excellent service for the client and customers is provided on a shift basis by ensuring that the system is well-maintained and reliable.

KEY TASKS

The technician is expected to adopt a flexible approach to his/her job so as to ensure a high level of performance and safety, and at all times ensure a continued focus on the needs of the client and customers. He/she is responsible for the maintenance of the full range of assets that constitute the PRT System. Other key responsibilities include:-

- Responsible for the delivery of sufficient operational vehicles at the appropriate times to enable the correct level of service to be operated.
- Maintenance of system assets including control systems, AVP, radio, power and M&EE equipment
- Maintenance of technical information, procedures and records.
- Procurement specifications for engineering materials and components
- Liaison with other staff and external contractors
- Responsible for development and implementation of company policies in association with other staff
- ensuring that employees, contractors and visitors are aware of safety procedures and any relevant legislation
- ensuring that all equipment, plant and substances being maintained are suitable for the task and are kept in good working condition; this includes the regular maintenance and servicing of equipment
- ensuring adequate training, information and instruction has been received to ensure that work is conducted safely
- applying the requirements of risk assessments and high-lighting any modifications.
- taking immediate and appropriate steps to report any risks to health and safety arising from the work activity
- bringing to the prompt attention of senior management any health and

- safety issue that requires their attention
- ensuring that all accidents and 'near misses' are properly reported and assisting with any investigation that is carried out to determine causal factors
- maintaining safe access to and egress from the workplace at all times

In addition all technicians must:

- take reasonable care for their own health and safety
- consider the safety of other persons who may be affected by their acts or omissions
- work in accordance with information and training provided
- refrain from intentionally misusing or recklessly interfering with anything that has been provided for health and safety reasons
- report any hazardous defects in plant and equipment, or shortcomings in the existing safety arrangements, to a responsible person without delay
- not undertake any task for which authorisation and/or training has not been given

SKILLS, KNOWLEDGE & EXPERIENCE

- Considerable experience in mechanical / electrical maintenance environment.
- Proven ability to communicate with a highly skilled team through continuous and rapid change. Ability to relate to colleagues in the team.
- Full driving licence.
- Educated to City & Guilds Level 2 or NVQ Level 3 standard or above.
